

**AMENDMENTS TO THE SPECIFICATION:**

Please REPLACE the legend for Table 4 on page 32 immediately before paragraph no. [0080] of the Substitute Specification with the following amended legend:

Legends: in accumulated phase,  $\ominus$  means that no accumulated phase was identified,  $\times \ominus$  means that an accumulated phase was identified, and \* means that accumulated phases of B and Zr coexisted; in size (particle size),  $\circ$  means that no abnormal grain growth occurred and  $\times$  means that abnormal grain growth occurred.
